

Dear Sir, Madam:

I believe Sinclair should be allowed to air the Kerry discussion panel if it so chooses. Senator Kerry has had ample opportunity to address the very public issues which will be raised therein. Should the Senator choose to address the issues which will be raised yet again in the Kerry discussion panel as shown by Sinclair Broadcasting, all the Senator need do is schedule a press conference to do so. He has the press at his beck and call, thus, no special programming for equal time need be granted as it is already at the Senator's disposal.
